

FAA-TSO iPad Charging Kit

Lone Star Aviation's iPad charging kit is the TOP seller and leader in the industry for panel mount chargers for iPad and USB solutions. FAA TSO approved for general aviation, business class, rotor-craft and Airline fleets around the world. Multiple STC for aircraft available from integrators.

The iPad charging kit, LS03-05105 includes a 28V to 5V converter, a panel mount USB receptacle, (LS03-05050-B) and several connector kits for various installation.

The new LS03-05050-B panel mount USB charger, 5v – 2.4A incorporates a proprietary (efuse) designed circuit for optimum PED aircraft dc sub-system protection. See .pdf attachments below for complete specification and installation drawings for general installations.

The LS03-05050 was replaced with the LS03-05050-A model to increase the charging capability of the iPad4. The LS03-05050-A is backwards compatible with earlier models.

The latest model: LS03-05050-B incorporates an efuse design with under-over-voltage, over current, over temperature and short circuit protection. Lab Test reports available upon

request.

Options: Additional connector kits available for plastic or metal hoods as well as solder or crimp pins. See connector Kits, LS03-05026, LS03-05026a, LS03-05026b, LS03-05026c, LS03-05026d. If you need additional assistance from our engineering group just email or call for engineering support.
